

Anne Selby Catwalk, Eunique
2014, Pleated silk & leather

Multi-layered Silk and Leather
Collar, by Anne Selby 2014

Pleated leather collar and cuffs,
created by Anne Selby using
Arashi Shibori techniques

Anne Selby is continuing to innovate in Arashi Shibori pleating methods using her award-winning Compleat Arashi Shibori Pleating Machine. New and dramatic multi-layered silk and leather accessories were met with applause and admiration on the catwalk show at Eunique, in Germany in May.

The education sector in Asia has shown substantial interest in Compleat, and Anne is looking forward to teaching her techniques again in China in 2015.

For Asia, contact **Albert Chan** at **Duraseal International Ltd**, albert.chan@duraseal.com.hk.

Anne's next Europe-based public workshop, which will provide instruction on her previously 'secret' techniques, is scheduled for May 2015, in the UK. Contact Anne Selby Ltd for further information.
